Européen de Développement Régional
Project co-financed by the European
Regional Development Fund

ISSUES TACKLED

- The Mediterranean area is confronted with freight transport problems that pose the issue of developing integrated and inter/multimodal transportation systems and operations
- Maximize the efficiency of cargo logistics in terms of economies of scale, freight safety and time saving
- Achieve in parallel the minimization of the negative environmental impacts caused by the prodigal use of resources.

Projet cofinancé par le Fonds
Européen de Développement Régional
Project co-financed by the European
Regional Development Fund

OBJECTIVES

- Strengthen coordinated transnational actions between local authorities, institutions and companies engaged with the development of the Mediterranean transport corridors, especially in sea.
- Promote a coordinated strategy between regional stakeholders to strengthen their capacity to face international competition.
- Improve services to develop maritime highways and short sea shipping, accessibility of islands and encourage the implementation of multimodal regional platforms.
- Promote transnational & interregional cooperation on logistic transport services
